

# AI Banking Knowledge Base Dataset

This document contains synthetic banking knowledge designed for Retrieval-Augmented Generation (RAG) chatbot systems. It includes realistic banking FAQs, policies, loan information, digital banking procedures, and customer support content.

## Personal Loans

Personal loans are unsecured loans offered by banks to customers for personal use such as medical emergencies, education, weddings, travel, or home renovation. Eligibility depends on salary, credit score, employment status, and repayment history. Interest rates generally range from 10% to 18% annually. Required documents include PAN card, Aadhaar card, salary slips, bank statements, and proof of employment. Loan tenure may vary from 1 year to 7 years depending on the bank policy.

## Home Loans

Home loans are provided for purchasing, constructing, or renovating residential property. Most banks finance up to 80% of the property value. Interest rates are usually lower than personal loans. EMI depends on loan amount, interest rate, and repayment duration. Customers can choose floating or fixed interest rates. Early foreclosure may attract charges depending on bank policy.

## Credit Cards

Credit cards allow customers to make purchases on credit with repayment at the end of the billing cycle. Benefits include cashback, reward points, airport lounge access, and EMI conversion options. Customers should pay bills before the due date to avoid late payment charges and interest penalties. Most banks provide fraud protection and card blocking services through mobile banking apps.

## Savings Accounts

Savings accounts are basic deposit accounts used for daily banking operations. Features include ATM access, internet banking, mobile banking, UPI transactions, and cheque books. Some banks require maintaining a minimum monthly balance. Failure to maintain balance may attract penalties. Interest on savings accounts is generally credited quarterly.

## KYC and Verification

KYC (Know Your Customer) is mandatory for opening bank accounts and availing financial services. Customers must submit identity proof and address proof such as PAN card, Aadhaar card, passport, or voter ID. Banks may also conduct video KYC or biometric verification for additional security and fraud prevention.

## UPI and Digital Banking

UPI enables instant money transfer between bank accounts using mobile applications. Customers can send or receive money using UPI ID, QR codes, or mobile numbers. Daily transaction limits depend on bank policy. Failed UPI transactions are usually reversed within 24 to 48 hours.

## Fraud Prevention and Security

Customers should never share OTPs, PINs, passwords, or CVV details with anyone. Banks never ask customers for confidential details over calls or messages. Suspicious transactions should be reported immediately through customer care or bank branches. Many banks provide instant card freeze options through mobile apps.

## Customer Support Policies

Banking customer support teams handle complaints related to transactions, loans, credit cards, fraud, and account issues. Complaint resolution timelines usually range from 3 to 7 working days depending on issue severity. Customers can escalate unresolved complaints to nodal officers or banking ombudsman services.

## Frequently Asked Questions (FAQs)

| Question                                            | Answer                                                  |
|-----------------------------------------------------|---------------------------------------------------------|
| What is the minimum CIBIL score for personal loans? | Most banks prefer a score above 700.                    |
| How can I block my credit card?                     | You can block it using mobile banking or customer care. |
| What is UPI transaction limit?                      | UPI transaction limits depend on bank policies.         |
| How long does refund processing take?               | Refunds generally take 5 to 7 business days.            |
| Can I prepay my loan?                               | Yes, subject to bank foreclosure policies.              |
